

1911 Census Update

I have now updated all the existing 1911 Census reference numbers in an effort to be a little more consistent!

In time, all the 1911 Census information I have accumulated will be published on the website. I am very grateful to everyone who has contributed information and images. I still have the mammoth task of adding the remainder of the 1200 images I acquired during the free sessions from findmypast. Some of these images will be not be associated with anyone in the Williams Family Tree and so I will create a new page to list them in case someone else would like them.
