

Close to 80,000 individuals ... and counting!

Upgraded the website to the latest version of the scripts from TNG - with fingers crossed! Everything appeared to go well but I'm sure you'll let me know if there are any problems.

Dick Hayhurst sent me some information on his side of the tree and I have been busy adding to that. However, after a 70th birthday party on the Sandercock side I have also been busy adding to their family.

These two branches some more input from J. O. Thomas and a with a few more updates and additions via email, have increased the individual count to nearly 80,000!

There are more interesting developments in the pipeline so stay tuned ...
