

Happy New Year

2011 promises to bring a lot of new records etc. to the genealogy scene and I hope to be able to keep up with everything thrown my way.

I have completed the transfer of all the census records from the old database to the new one and just have 1,450 unaccounted for! Once they are found and entered I can get down to the business of adding more records and continuing my research.

I would like to take this opportunity to thank everyone who has helped enlarge the database by their kindness in sharing their research. Without the generosity of others I would not have reached anything like the 59,962 individuals in the database (not quite made it to the 60,000 mark!).

Let's all have a healthy and prosperous New Year ...
