

Hayhurst and Hake families

Dick Hayhurst has very kindly sent me information about his ancestors and how they link in to The Williams Family Tree (via the Satterthwaites etc.). I have added a lot more information to this side of the family and have found a few people Dick was not aware of.

Meanwhile information sent to me by Pamela Myers, Hazel Franklin and Jenny Davis along with data from their trees on Ancestry have allowed me to add a great deal of information, and make a few corrections, to this side of the family.

I am very grateful to the above named people and to everyone else who has sent me messages with updates, additions and corrections over the last few weeks. Please keep the information flowing.
