

My New Year Resolution should beÂ to keep this Blog up to date but that would break a resolution I made years ago – not to make any more New Year Resolutions!

What I can say in my defence though is that I am always busy doing something and I don't get a great deal of time to keep bloggy boy as up to date as I should. I am forever going off on tangents as I uncover more family members and I get a lot of emails (keep them coming) about family links from all over the world. Some emails I get are not directly related to the Williams Family Tree but interest me enough to do a little extra-curricular research! I have a lot of items 'pending' and promise to answer all emails eventually ...

Right now, we have records of 38,923 individuals, 11836 families and 5170 surnames in the Williams Family Tree database. The size of the GEDCOM file that I have to upload to the web site every time I make any changes is now approaching 40Mb. This is the maximum file size that I am allowed to upload to my server! Ah well, as our lot always say, "where there's a Williams, there's a way!" and I have solved this problem by splitting the GEDCOM file into pieces and reassembling them on the server. This all takes time though, and so I might not be updating the web site as often as I have in the past.

More later ...
