

Phew!

I have spent the entire day sorting out all the non-census images on the website. Now all the Birth, Marriage and Death Certificates, the Photos and the Documents are all sorted and, hopefully, display where they should! I am very grateful for all the images I have been sent.

The Census images will take a while longer as there are over 7000 of them! I need to eliminate the duplicates and make sure all the images are correctly linked to the right individuals.

Wish me luck!!
